PATENT
Docket No.: ST00014C2(107-US-C2)
10/712,789

Claims 1-10 and 12-20 are currently pending in the present Patent Application. The Examiner has rejected claims 1-10 and 12-20 under 35 U.S.C. § 112, second paragraph, and has also rejected claims 1-20 under the judicially created doctrine of obviousness-type double patenting and also under 35 U.S.C. § 102(e). The Examiner has also stated that the specification is required to be updated with respect to the related pending applications.

In response, Applicants have amended the claims to overcome the rejections under 35 U.S.C. § 112, second paragraph, have traversed the requirement for terminal disclaimers to overcome the rejections under the judicially created doctrine of obviousness-type double patenting as to U.S. Patent Nos. 6,680,695, 6,466,161, 6,707,423, and 6,529,829, and U.S. Patent Application No. 10/775,870, and have traversed the rejections of the claims under 35 U.S.C. § 102. The specification was amended to correct references to numbers in the drawings and to improve grammar and clarity, but no amendments were required with respect to the reference to related pending applications. Please reconsider the above-identified Patent Application in view of the Amendments and Remarks contained below. Applicants believe that no new matter has been added by these Amendments.
